4. Transportation:

School buses pick up students from centralized points along the major roads. The precise location of the pickup points will depend on the residential locations of the majority users. Safety of children is our priority; a conductor and a lady attendant accompany children on all routes. For the safety and security of the children, all school buses are fitted with surveillance cameras. The school buses are also equipped with Global Positioning System (GPS) which enables parents to track the locations of the bus.
